AMENDED TAX Honoring Dante PLANNED AS AID **BILL THIS WEEK**

Report to Senate Likely On September 21, Says Penrose.

CLOSE CONTEST IN COMMITTEE

Tie Possible If Vote of McCumber Goes to Democrats.

The legislative process which will determine the Federal tax next year on this year's income will be advanced another step this week.

The Senate Finance Committee, having received Secretary of the Treasury Mellon's advice and obtained such other information as it needs, will buckle down to the task of revising the House tax revision bill. Chairman Penrose said yesterday the committee would finish the job by the end of the week and be ready to report the amended bill to the Senate when Congress reconvenes on September 21.

Fight Over Mellon's Plan. The major contests over features of the bill in the committee this week and later in the Senate will be over the following recommenda-

tions of Secretary Mellon:

1. Repeal of the excess profits tax as of January 1, 1921, so as to apply to 1921 profits, instead of the House provision making the re-

peal effective January 1, 1923.

2. Reduction of surtaxes on individual incomes from the present maximum of 65 per cent to a maximum of 25 per cent, compared with the 32 per cent maximum provided in the House bill. 3. Retention of the transporta-tion taxes until January 1, 1923, at

If La Follette should be the only Republican member of the committee to vote against the admin-istration program it would be ap-proved, 9 to 7.

McCumber Held Uncertain.

The administration leaders, how-ever, are not sure of the vote of Senator McCumber of North Dakota. He has displayed an attitude of opposition to the retroactive repeal of the excess profits tax and some other features of Mr. Mellon's recommendations that is occasioning Chairman Penrose considerable

Syndicate Plans to Sue For Sequestered Properties.

(Special Cable to The Washington Herald and United News.) PARIS, Sept. 11.—Under an agree ment by American financiers, a syndicate has been formed to take over the exploitation and manage ment of the confiscated estate of Archduke Frederick of Austria. The prewar value of the estate was \$200,000,000.

The syndicate includes Charle Sabin, J. Leonard Replogle, Frank Munsey, Thomas Felder and William Honnald. Samuel Untermyer has een retained as counsel.

WOULD GIVE JOBS TO UNEMPLOYED

Commerce Department Is Enlisting Help of Industrial Chiefs.

By ROBERT J. BENDER.

Thousands of standardized homes to be built by people of moderate means-this is a project the government is now working on and may be ready for announcement at the forthcoming unemployment confer-

Both to afford employment for hundreds of thousands of workers in many branches of industry and to offer an effective panacea for industrial unrest generally, the proposed own-your-own-home cam paign is looked upon here as a imely and practicable instrument.

Co-operation in Aim. The Department of Commerce through the voluntary co-operation committees representing all phases of home-building work, has been carrying on a study of the project on the following bases: 1. To permit of people contemplat-ing the building of homes costing not more than \$10,000, and from

that figure down, to do so easily, cheaply and quickly through the seof standardized plans and equip-2. To effect such a result through the patriotic co-operation of indus-try, civic authorities, builders, banking institutions and others interested in home construction; and not as a government project, in-volving the expenditure or even

loaning of funds by the Federal Volunteer committees of promi-Americans—contractors, real men, architects, manufacturnent Americans-contractors ers, brick and lumber men, as well such a basis of standardized equip-

ment for homes as to make the project nationally attractive.

To Meet Sectional Needs. Distinguished architects have prepared plans for a large number of standard-type houses, drawn to accommodate climatic and other sectional conditions, all calling for standardized materials and fittings, available in the respective sections of the country for which the house plans are drawn. For example, the California-type house has been drafted in different styles for the pain, sentiment and to be planning to concessions.

NEW YORK, Sept. 11.—In a spec-tacular revolver fight that attract-ed a thousand persons in the Herald Square district today detectives Square district today detectives captured two men accused of hav-ing "jimmled" a safe containing \$8,000 in the store at 138 Broadway and frustrated, so the detectives say, well laid plans for a series of safecrackings in adjoining stores to "clean up" \$100.000.

"clean up" \$100,000.

The officers arrested Patrick
Hannon, 25 years old, salesman and
Harry Brown, 27 years old, electrician: The men were captured with what the police say is the most complete set of yeggmen's tools ever seized in New York City. The police say the men were seen entering the building by way of the skylight, letting themselves and tools down by a rope fastened to a chimney. At a signal the de-tectives on watch rushed into the building, surprising the alleged "yeggmen." Shots were fired. The police say the prisoners confessed they planned to bore their way through walls to adjoining stores, where safes had been spotted.

ROUNDHOUSE FIRE **WRECKS 18 ENGINES**

JERSEY CITY, N. J., Sept. 11. Fire this afternoon spread with great rapidity through teh roundhouse in the Erie Railroad here destroying eighteen passenger en-gines. Firemen, responding to three alarms, prevented the flames from spreading to adjoining struc-tures. The loss was estimated at \$350,000.

Fifteen men were at work on the engines and the flames, eating their way along the oil-soaked beams and floors, caused the men to hustle out without their street clothing. Employes about the yards got out two locomotives. Two firemen were slightly injured during the blaze when a chimney toppled over and bricks fell upon them. Officials of the railroad stated that the fire would not in anyway interfere with service.

COLLINS PREDICTS FREEDOM FOR ERIN WITHIN SHORT TIME

Dublin Hears Interned Prisoners Will Be Released Soon.

Special Cable to The Washington Herald and United News.) LONDON, Sept. 11 .- Dublin is unquestionably growing more and more inclined to the belief that the Dail Eireann, in its session next Wednesday, will appoint plenipotentiaries to meet Lloyd George in the interests of Irish peace, on the basis of the premier's last offer to upon the fundamental right of an Eamonn de Valera.

All predictions, therefore are more or less conjectural. There are, how-ever, certain indications of the continued growth of amity or rather a decrease of antagonism, between the British and Sinn Fein governments. It is rumored, for example that the work out to ward the work out to ward the streets—but in displaying such plantage that the work out to the down toward the lead to the streets—but in displaying such plantage that the work out to the work out decrease of antagonism, between that two weeks more will see the entire body of interned members of the Irish republican army released from the prisons and camps.

Again, there is the speech of Michael Collins, "brains" of Sinn Fein's active war upon England, in

which the Irish commander-in-chie predicts freedom for Ireland within a surprisingly short time "It is not because of any action by our enemies," he qualifies the prediction, "nor for any hope that they hold out to us. But it is because of the strength of our position. It is coming because of the men who died for Ireland."
